

# GIS Technician

Qualified candidates will be proficient in GIS data and software use, engineering concepts and mapping software. The position is responsible for dispatch inquiries, therefore excellent communications skills are required. This position is also responsible for updating and maintaining system and key maps, completing maintenance service orders and outage reports, and much more. Candidates must have advanced knowledge, experience and training related to GIS in support of the cooperative's goals and objectives.

**Applicants should possess the following experience and education:**

- Associate degree in GIS, Computer Science, Engineering Technology or a related field.
- Experience in the utility industry (especially electrical field) is preferred.
- 1-4 years of experience related to GIS drafting and SQL database management.

Send resume to [hr@udwiremc.com](mailto:hr@udwiremc.com) or applications are available at the office Monday-Friday 7:30 am - 4:30 pm.
